

Comments from some of our Valued Customers

"We value our horses, so we're particular about the shavings we use in their stalls, both at home and on the show circuit. We make the drive to Marshfield because we know we are getting a quality product at a reasonable price; it's a pleasure doing business with people as honest and hard-working as Mike and Connie."

T & B Farms

Bill and Tari Reeves
Pierce City, MO

"We've used S-4 Quality Shavings as our shaving supplier for 5 years now. Good quality shavings are hard to find and we are glad we found S-4 shavings."

5 Star Performance Horses

Dalton and Tracy Kruse
Odessa, MO

"S-4 has the best shavings we have ever used. S-4 is the only shaving supplier we will use! They are clean, dust free and very economical."

Susan and Jerry Senteney
Springfield, MO

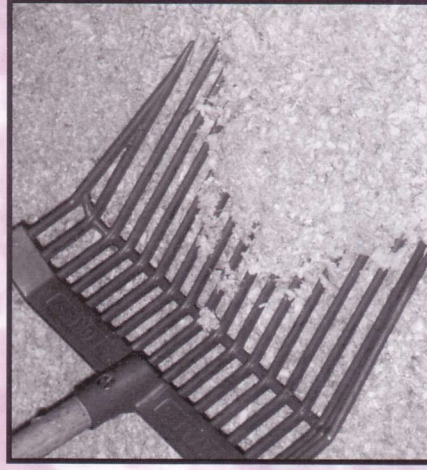

"We rely on S-4 Quality Shavings for bedding at our breeding facility. We prefer baled bedding for efficiency and S-4 gives us the quality we need at a competitive price. We can always count on them to have our bedding ready when we need it. We particularly appreciate the A+ Customer service! This is a very well run business. Thanks S-4!"

S-4 Quality Shavings

970 Vinyard Rd.
Marshfield, MO 65706

S-4 Quality Shavings is a family owned and operated business. Established in 1995, S-4 is operated by Mike and Connie Stewart, daughters Blair and Monica and one part-time employee. S-4 came to be from a need for quality bedding for their own horses and cattle. The business has quickly grown, to serve thousands of animal owners, stables, veterinary clinics, poultry operations, cattle operations, dairies, kennels and commercial show facilities since that time.

Why Choose S-4 Quality Shavings?

- S-4 Shavings are available in easy to handle 7 cubic feet compressed bales which stack and store easily.
- S-4 Shavings are composed of 100% kiln dried pine, thus providing the maximum absorbency of softwood shavings.

- Plastic bags provide water protection and increase storage location possibilities.

- Bags are heat sealed without use of staples, which could create injury to the animal.

- Baled shavings save you time, no more wheelbarrels and scoop shovels to transport bedding.

- Your barn surroundings and alley ways are kept neat and clean.

- More time can be spent with your animals.

- S-4 Shavings are just the right consistency to allow you to dispose of only the manure and wet material, which saves you money.

- S-4 Shavings are environmentally friendly. We use only shavings which are a by product of large primary lumber mills. No trees are cut down solely for the use of shavings.

- Pine shavings are biodegradable, they spread on fields easily and decay quickly.

- S-4 shavings may be floor loaded or palletized

- S-4 shavings is conveniently located just off I-44 east of Springfield, Missouri.

- Prompt and friendly service!

Whether you need a single bale or a semi truck load, **S-4 Quality Shavings** is the ideal choice to fill your needs.
